UPDATE: 2012-2014 Smarties Campaign Complete!

A SmartBoard is now in every classroom.
In 2014 we gifted over **$42,000** to the schools for SmartBoards, iPads, Laptops, Courage Retreat and New Curriculum Materials.

2014-2015 Health and Wellness Phase One Complete
We will be exploring furniture options in the LMC and the Data Room.
More fundraising this year to reach our goal.

What's on the horizon for 2015-2016

Health and Wellness

We turn our efforts to creating innovative learning environments. We will support the schools in constructing classrooms of the future, utilizing space for optimal engagement and inspiring creativity. Research tells us that physical activity positively correlates with academic achievement. There is an increase in cognitive performance, classroom behavior, concentration skills, and improved attitude when children are not sedentary. Enrichment in physical education and emotional guidance will contribute to the overall development of our students. Our goal is to provide a variety of opportunities for students to increase their own health and wellness as we also take a step towards becoming recognized as a Green and Healthy School. Help is reach our goal of raising **$25,000**

Our Annual Appeal is the Educational Foundation's largest Fundraiser for 2015-2016. All homes in the district and families with children enrolled in the district will receive this Newsletter highlighting our past accomplishments and goals for the future. We ask for your generosity as we continue to support innovation in the classrooms not funded in the schools' budget. With these resources we can keep our children in a district that "Significantly Exceeds Expectations" as deemed by the Wisconsin Department of Public Instruction.

Mail your donation to: Fox Point Bayside Educational Foundation

Green&Healthy Schools Wisconsin

The Educational Foundation is working to make our schools Green and Healthy.

Green & Healthy Schools Wisconsin supports and encourages schools to create safe learning environments and prepare students to understand, analyze and address the major environmental and sustainability challenges now and in the future through providing resources, recognition and certification. Administered through a partnership between the Department of Natural Resources, the Department of Public Instruction and the Wisconsin Center for Environmental Education, this program provides information, resources and announcements for all school staff, community members and others interested in green and healthy initiatives and activities for Wisconsin schools.

Green & Healthy Schools Wisconsin recognizes achievement in nine focus areas:

- community involvement
- energy
- environmental and sustainability education
- environmental health (indoor air quality, chemical management, integrated pest management)
- **health and wellness**
- recycling and waste management
- school site
- transportation
- water
