

Starting TUESDAY, JUNE 26 and ALL OF SESSION TWO, we ask that you please use the attached map so we can ensure a safe drop off and pick up plan for our students attending Summer School!

- When dropping off and picking up, parents should enter the drop off/pick up zone traveling west on Community Place and turning left onto Longacre
- Once you drop off your child/children, please continue south on Longacre Road to Yates Road
- If you are planning on parking your car and walking your child/children into the building, please come down Longacre going north, take a right onto Community Place and park on the interior of the grass median (not the residential side) so you car is facing east.
- Students will enter the southeast entrance of the building using the sidewalk and driveway by the bike racks.
- We have been told that the bike racks will be removed for the duration of the construction, so if your child is a biker, you will may need to consider a safer option.
- Staff will be stationed outside to help direct parents and students in the right direction.
- Due to teachers not arriving before 7:45 AM, no children can be dropped off (or out of their vehicle) until 7:50 AM.
