

Bayside Middle School King Rd Closure

King Rd will be shut down between 7:00am and 5:00pm, May 6th-10th for utility connections to the new Bayside Middle School.

Students: Although all safety barricades, signage, and precautions will be taken in these areas, please avoid walking along King Rd during this week.

Homeowners: All driveways will remain accessible to your house. You may have to enter from the north or south depending on which areas are under construction.

Trash Pickup: Please put your trash cans at the end of your driveway as you normally would. If needed the construction crew will move them away and back from the areas of construction so garbage pickup is accessible during the regular scheduled time.
