## **2013-14 Goals**

As derived from Mission, Vision, Values

1. Create a culture of collaboration demonstrated by increased student and teacher engagement, parent involvement and community awareness by June 2015.
2. Develop a system of personalized instruction so that each student achieves one year of growth in a year's time in reading and math by June 2015.
3. Strategically and efficiently utilize district resources; human, financial, and capital, to provide a highly effective school environment that supports our mission and vision by June 2015.
4. Design and implement a system of accountability for the School Board, administration, teachers, non-certified staff, parents and students by July 2014.
