

# Academic and Career Plan Process

Nicolet's Academic and Career Planning is a comprehensive, ongoing process, culminating in the post secondary plan. The educational process assists students in planning and managing their school program. The goal is to provide a variety of academic and career pathways allowing students to individualize their course of study to meet personal, college, and career goals. During each grade, students will understand academic and career plans are an ongoing process which change with new experiences and may be revised.

## 6th Grade Outcomes

- ❑ Understand the 16 various courses of study/career pathways and career clusters
- ❑ Explore the courses of study and select one to research
- ❑ Develop educational goals targeted to a specific career pathway

## 10th Grade Outcomes

- ❑ Research potential careers and colleges
- ❑ Reevaluate Academic Career Plan to make sure course selection/electives match
- ❑ Explore Clubs, sports, pre-college programs, summer camps, college visits
- ❑ Review school course offerings and selections supporting personal goals and revise ACP.

## 7th Grade Outcomes

- ❑ Complete interest inventories to learn more about you and the world of work
- ❑ Understand how to set academic and personal goals
- ❑ Learn how to better use school resources as you gather information, research career pathways and clusters in preparation of high school transition.

## 11th Grade Outcomes

- ❑ Research college options and the college application process: Complete a college search; Select colleges matching interests; Visit admission college representatives; Attend college fairs; Review college applications and essays.
- ❑ Prepare for and take assessments, review results and determine how they match personal, college and career goals.
- ❑ Explore clubs, sports, pre-college programs, summer camps, college visits
- ❑ Review and select courses supporting personal goals and revise ACP

## 8th Grade Outcomes
