New Wisconsin school report cards released

Most Wisconsin schools are meeting or exceeding state expectations

BY CORRINNE HESS • NOVEMBER 19, 2024 • UPDATED NOVEMBER 19, 2024 at 3:18 PM

Listen

In this photo taken Wednesday, Feb. 6, 2013, Malachi Stewart, right, high-fives educational assistant Addison Hawk as Ahmed Omar continues with his work in their kindergarten classroom at Campbell Hill Elementary in Renton, Wash. Elaine Thompson/AP Photo

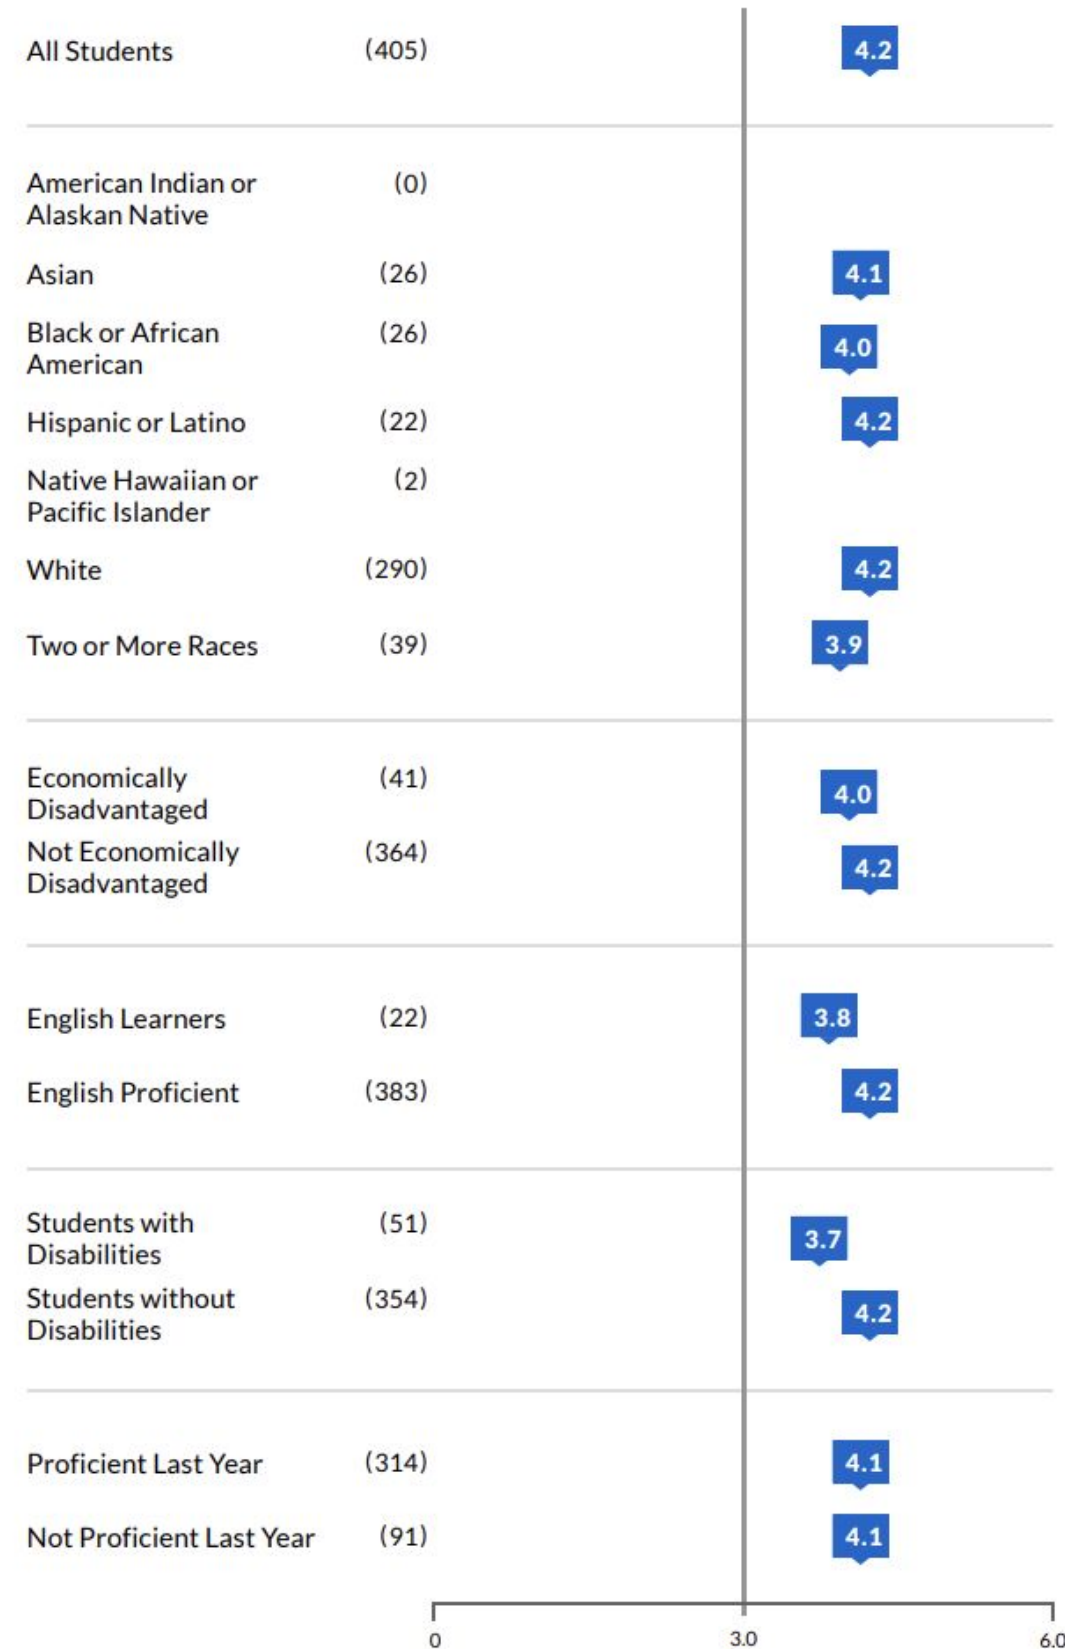

1. Swallow School District, Hartland
2. Whitefish Bay School District
3. Fox Point J2 School District
4. Merton Community School District, Hartland
5. Hartland-Lakeside J3 School District
6. Geneva J4, Lake Geneva
7. Cedarburg School District
8. Lake Country School District, Hartland
9. Richmond School District, Sussex
10. Kohler School District

Value Add

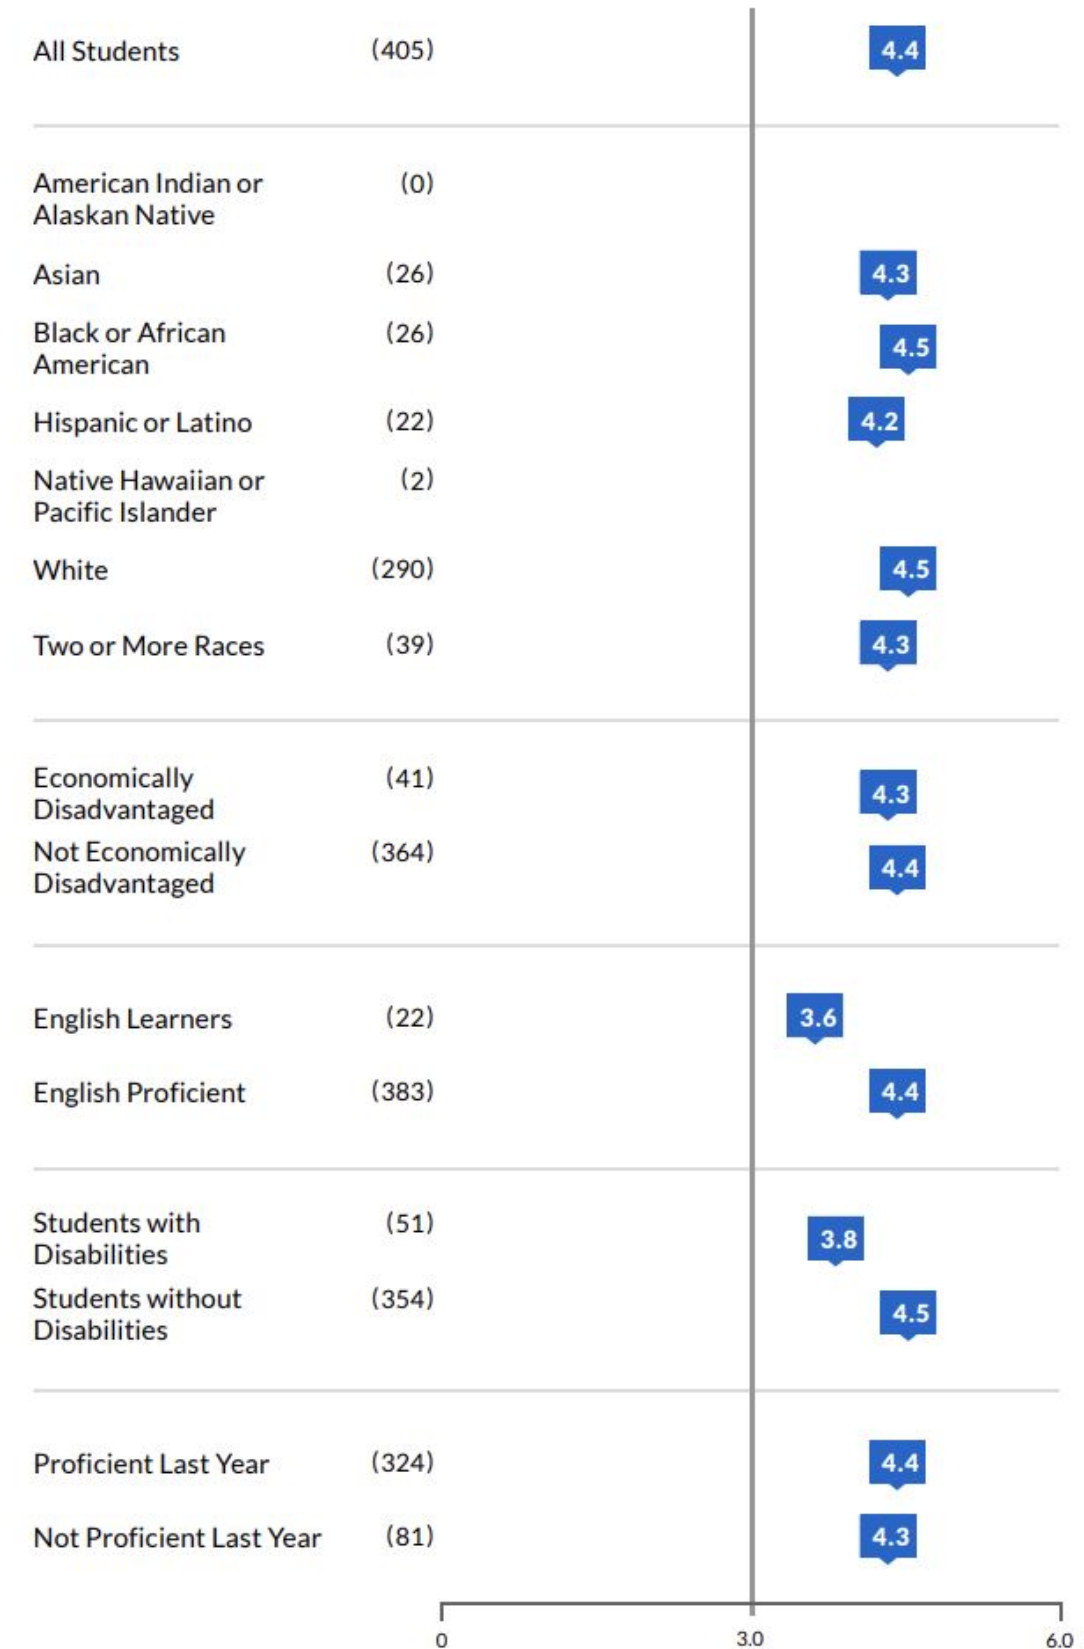

Student Group Value-Added (for information only)

Value-added scores cover an approximately 0-6 range. Higher scores mean greater positive impact. A score of 3.0 is average. Group size is shown in parentheses. Groups with fewer than 20 students do not have a score displayed. Shaded boxes indicate higher-than-average scores.

Measures of Academic Progress

- Universal Screener for Math and ELA
- Administered multiple times annually in grades 1-8
- Provides both Achievement and Growth
- Computer based and adaptive; Immediate results
- Nationally normed data

The screenshot displays a digital test interface. At the top, there is a toolbar with icons for zooming (minus, 100%, plus), erasing, highlighting, printing, and a close button. An "Exit Test" button is located in the top right corner. Below the toolbar, a dark blue header bar contains the instruction "Read the paragraph." The main content area features a paragraph of text about the importance of oceans. Below the text, a question is posed: "What is the main idea of the paragraph?". Four multiple-choice options are listed, each with a radio button. The fourth option, "Oceans are important to life on Earth.", is selected and highlighted with a grey background.

100%

Exit Test

Read the paragraph.

Earth has five oceans. They are part of one large ocean. Ocean water covers most of the planet. The oceans are very salty. The oceans are very important to life on Earth. Many plants and animals live in the oceans. The oceans also help make the weather on Earth. Water moves from the ocean to the sky. Later, the water falls as rain or snow. In this way, oceans provide Earth with the water that people, animals, and plants need to live.

What is the main idea of the paragraph?

☐ 1. Oceans are very salty.

☐ 2. There are five oceans on Earth.

☐ 3. Plants and animals live in oceans.

☒ 4. Oceans are important to life on Earth.

Continuous Improvement

- Learning efficiencies with a new testing platform; continue staff training
- Understanding timelines of screening windows and statewide communication
- Develop personal reading plans, feedback from families and teachers

Professional Learning

- Staff training and engagement at professional development days and PLCs
- Literacy Leadership training
- Curriculum Council Committee work
- Ongoing data review

Work Ahead

Implementation

- New Screening Tool - training, data review,
- Adjust screening windows and timelines
- Develop personal reading plans, feedback from families and teachers

Professional Learning

- Staff training and engagement at professional development days and PLCs
- Leadership training
- Engaging families

Curriculum Council

- Elementary and Middle School Teams
- Feedback loop between teacher teams and council
- Work through possible pilot of materials and resources

EARLY LITERACY DATA

Grade	%ile
K	90-99 Well Above Average
	75-89 Above Average
	26-74 Average
	11-25 Below Average
	1-10 Well Below Average
	Mean
	SD
	N

What do these early literacy scores mean?

The data above show the overall early literacy performance of this group based on Winter benchmark testing.

The left portion of the bar graph shows the percentage of students in the five performance levels (see key below) for each measure. The national percentages for each performance level are also provided for comparison.

10%	Well Below Average
15%	Below Average
49%	Average
15%	Above Average
10%	Well Above Average

The right portion of the bar graph shows the percentage of students in each category based on their Early Literacy Composite score. These categories describe the likelihood that students will achieve year-end literacy goals based on their current scores.

The tables show both the student percentages and the number of students in each of the five performance levels and in each of the three risk categories (see key below). The group's median percentile and for the Early Literacy Composite are also shown. These are compared to the national median percentile of 50.

High Risk (< 50% chance)
Moderate Risk (50% to 80% chance)
Low Risk (> 80% chance)
